

Thousands Welcome Debs' Return Home

Terre Haute, Ind., Dec. 28.—(By the A. P.)—The cheering of thousands of followers, friends and neighbors, Eugene V. Debs, the socialist leader, returned tonight to his home here after an absence of almost three years spent in federal prison for his anti-war speech in 1918 when America was at war, and responded to the greetings with a speech from the front porch of his home, pledging again that he would not rest until others, now serving prison terms are free.

From the station to his home, and then wended its way into the downtown district to continue the jubilation. Hundreds of spectators waited the line of march of the parade.

The parade moved directly from the railroad station to Debs' home, only a short distance, with the socialist leader riding bareheaded on a motor truck.

When the truck drew up in front of the home, Mrs. Debs appeared on the front porch but she soon retreated to the interior as the swarming crowd separated her from her husband. Finally, when he had jammed his way to the porch, she rushed out to embrace him. Then he turned to the welcoming throng to thank it for the demonstration.

WANT GUARANTEE FOR JAPANESE IN SIBERIA

Washington, Dec. 28 (By the A. P.)—Japan wants from the far eastern republic some guarantee that her residents of Siberia shall be adequately protected and also wants assurances that there shall be no attempt to conduct propaganda, more particularly across the Korean frontier.

The Japanese delegate's statement was made following the publication today of demands alleged to have been made by Japan upon the Siberian republic, demands which the Japanese minister characterized as untrue.

"We want no exclusive privileges from the far eastern government," he said, "but merely guarantees for our residents who have worked many years in Siberia and who have considerable interests there. We are particularly anxious about the question of bolshevik propaganda."

SPECIAL MEETINGS CONTINUE TO CONSIDER IRISH TREATY

Dublin, Dec. 28 (By the A. P.)—Special meetings continue to be held to consider the Irish treaty. The Cavan Urban Council has adopted a resolution setting forth high appreciation of the terms of the treaty, and, while recognizing the great services rendered by the members of the Dail Eireann opposing the treaty, declaring: "We unanimously request them for the sake of our dear country to burn their differences and stand with Griffith and McKenna for ratification."

NO PUBLIC REQUESTS IN WILL OF ROBERT MALLORY

Greenwich, Dec. 28.—No public requests are in the will of Robert Mallory, late of this town, and formerly executive manager of the Mallory Steamship Lines, which was offered for probate today. The estate is believed to be considerable as Mr. Mallory was reputed to be very wealthy.

The will gives the personal effects and \$200,000 to Mrs. Mallory, and \$10,000 each to the three children. The residue is placed in trust, the income to go to Mrs. Mallory and at her death the principal will be distributed to the children. In the application for probate the real and personal estate are mentioned at nominal sum.

French statement as to submarines. Mr. Hughes said that if these vessels were to be available for defensive purposes in connection with fleet movements "they should bear some definite proportion to the fighting fleet."

Mr. Balfour's Reply.

Mr. Balfour, who followed Mr. Hughes, said that the French statement had "profoundly disappointed him," although he rejoiced in French acceptance of the capital ship ratio and agreed that if nothing else was done as to naval disarmament, "the scheme already in sight with regard to the limitation of capital ships did immensely relieve the burden of armament upon an overburdened world."

Mr. Balfour said he did not regard the French action as to capital ships as an "overwhelming sacrifice," as the figure of 175,000 tons would be found to mean an increase in relative strength for her he did not begrudge. The French did propose "overwhelming sacrifice," as the figure of 175,000 tons "submarines of a new type" than either other navy possessed. This made it certain, he said, that if France carried out her submarine program, "her submarines would exceed those of any other power in the world."

The British delegate declared it "was perfectly obvious that the proposed 30,000 tons of submarines were intended to destroy commerce."

"They could not be intended for any other purpose," he said, adding: "The whole of this controversy will again come up before a public conference," for which occasion he reserved himself.

Mr. Balfour said he must dwell on the "effect the French declaration of naval policy must inevitably produce upon British opinion."

"It was perfectly clear," he said, "that if at our very gates a fleet of 30,000 submarines (60,000 tons of which are to be of a new type) are to be constructed, no limitation of any kind on surface vessels capable of dealing with submarines could be admitted by the government" which he represented.

Replying to Mr. Balfour, M. Sarraut said he could not comment "on the orders of my government," adding that "certain delegations" had expressed disappointment that France could not make sacrifices similar to those she made in capital ships as to other classes of vessels.

M. Sarraut said the theory that "there is an inevitable and necessary correlation between what we are obliged to do and what our neighbors would then deem themselves obliged to do" could not be asserted without inserting the contrary.

He added that the French group did not admit also that there was a "logical correlation" between capital ships and submarine tonnage.

"That is an abstract rule which you thought you ought to lay down here," he continued, "but we have shown that we could not recognize it. We are guided by our needs, duty stated, proved, legitimized. It is this rule, and no other thought, which dominates our feelings on the submarine question."

It was in his rejoinder to this speech of M. Sarraut that Mr. Balfour sought to show the "message" Great Britain saw in the French submarine program. At the conclusion of his remarks he said he regretted having been "compelled to insist upon an aspect of the question which he gladly would have left undisturbed."
